

RENTAL EXTENSION POLICY

1. Included Rental Period

Each rental includes a defined service period as outlined in the selected package, estimate, or invoice at the time of booking. The rental period begins on the confirmed delivery date and runs continuously unless otherwise stated in writing.

2. Rental Extensions

Dumpsters remaining on site beyond the included rental period are considered extended rentals. Extensions may occur by customer request or by continued on-site use without scheduled pickup.

3. Extension Fees

Once the included rental period has been exceeded, additional charges may apply. Extension fees are assessed based on the applicable daily, weekly, or long-term rates associated with the original service package or estimate.

4. Conversion to Weekly or Long-Term Rates

At its discretion, RO RO Rentals may convert extended daily rentals to a weekly or multi-week rate when continued use indicates ongoing service needs. This conversion is intended to fairly reflect ongoing usage and operational costs.

5. Pickup Scheduling and Availability

Pickup requests are scheduled based on operational availability and routing. Customers remain financially responsible for the rental and any applicable extension fees until the dumpster is physically removed from the property.

6. Customer Responsibility

Customers are responsible for monitoring their rental period and requesting pickup or approved extensions in advance. Failure to communicate or delayed scheduling requests do not waive extension charges.

7. Policy Acknowledgment

Booking a rental, requesting an extension, or continuing use of a dumpster beyond the included rental period constitutes acknowledgment and acceptance of this Rental Extension Policy.
